

RAMSNow

From a fictional brief to a sample document

NOT FOR SITE USE

Layout example only. Not a risk assessment, method statement or approval.

01 THE FICTIONAL BRIEF

A sample room refresh for a fictional demonstration organisation. No real address, workers, programme or site conditions are provided. The purpose is to show the document structure, not to plan any work.

02 THE SAMPLE DELIVERABLE

The following two pages are the actual output of the existing RAMSNow PDF renderer using a synthetic fixture. They show project information, scope and sign-off structure. The output date is 5 September 2026.

03 WHAT STILL NEEDS PROFESSIONAL REVIEW

No hazards, control measures, safe method, emergency arrangements or site-specific assessment have been prepared. No qualified person has approved this example. It must not be used to plan, authorise or perform work.

04 WHAT THIS EXAMPLE PROVES

A real local PDF output, presented here with an ExclusiveSale cover and page branding. It does not prove authenticated drafting, live AI generation, quota handling, saved history, payment or an accepted operational deployment.

Prepared for preliminary product evaluation. Commercial rights and handover remain subject to the agreed asset or licence schedule.

SYNTHETIC ILLUSTRATION - NOT A RAMS DOCUMENT FOR USE

Risk Assessment & Method Statement

SYNTHETIC ILLUSTRATION - NOT FOR SITE USE

1. Project Details

Project: DEMO-RAMS-001 - fictional room refresh
Location: Fictional demonstration site - no real address
Client: Demonstration organisation (fictional)
Date: 5 September 2026

2. Scope of Work

This is a synthetic rendering example, not a risk assessment or method statement for use. No work method, hazard assessment, safety controls or approval has been supplied. It demonstrates the document structure only. It must not be used to plan, authorise or perform work.

Duration: Not assessed - demonstration only
Working Hours: Not assessed - demonstration only

3. Hazard Identification

Hazard	Risk Level
--------	------------

4. Control Measures

5. Personal Protective Equipment (PPE)

6. Emergency Procedures

- Not assessed. This synthetic illustration provides no emergency plan and must not be used for work.

7. Permits Required

- Not assessed - demonstration only

8. Personnel

Site Supervisor: No real person - demonstration only
Contact Number: No contact number supplied
