

Club Platform Portfolio

A specialist treatment platform for the audience you already reach.

Who it fits

Practitioner networks, professional bodies and businesses with an established treatment or wellbeing audience.

The commercial opportunity

Connect discovery, practitioner choice and the intended booking-to-settlement journey around a defined specialist sector.

A proposed UK sector licence or defined platform acquisition, with a portfolio route for buyers seeking several sectors. Colonic Club provides the reference vertical; ten further treatment sectors are proposed.

Explore the workflow

- The Colonic Club reference and an illustrative treatment-platform walkthrough.
- A public scope schedule distinguishing vertical assets from the shared core licence.

Define what transfers

- Agreed vertical configuration, relevant application assets and documentation.
- Specified seller-owned brand assets and a separately defined core licence where required.

Agree the handover

45 calendar days after agreed acceptance, capped at 40 hours, with two knowledge-transfer sessions and an operating pack.

Proposed sectors are not launched businesses. Full transaction-package acceptance remains to be established for the agreed scope; core IP and Colonic Club's operating business do not transfer automatically.

Discuss your sector opportunity

Tell Mitch which audience you serve and whether a sector licence, acquisition or portfolio would fit.
